Create Your Own Bucket List

From the time you were a child and let your imagination run wild, you probably already have collected some thoughts about your bucket list.

Think about what you have always wanted to do, to have, to make, or where to go.

A bucket list doesn't have to be extreme like bungee jumping or travelling to Egypt.

It is very personal and custom made by you, for you and no one else's opinion matters.

This is not the time to be timid or fearful or wonder how in the world you can make it happen. It's not the time to be realistic or rational.

It's time to dream.

Consider each of the categories below and skip the ones that you have no interest in.

We aren't forcing choices.

Just exploring.

Ready to brainstorm and put your dreams on paper?

Check and/or write everything you have ever wanted to try below. What have you always wanted to do?
